

# C-Plow 8000 Series

Contact us 800-433-5620  
today: [hiniker@hiniker.com](mailto:hiniker@hiniker.com)

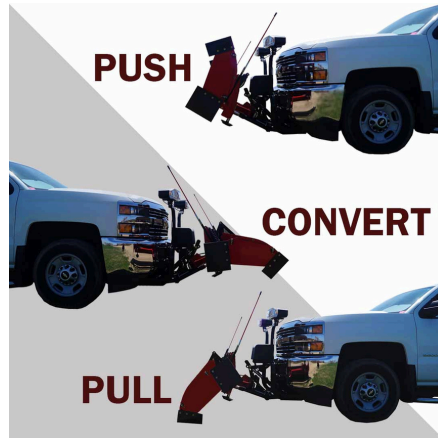

## Features and Benefits:

- Optional LED or Halogen headlights.
- The high-tensile steel superstructure of the moldboard provides exceptional resistance to bending and twisting, for extra heavy-duty applications.
- Pinch-free pivot point is 9" above the ground providing protection from higher obstacles such as curbs and parking barriers.
- 30" tall, deep curve, high-density polyethylene moldboards are dent-resistant and corrosion-free.

# Move More Snow Faster

The Hiniker C-plow offers all of the heavy-duty performance of a conventional plow plus the added versatility of a high performance backdrag plow. Plow loading docks, residential driveways and congested parking areas faster than ever. The Hiniker C-Plow blade converts from a conventional plow into a backdrag plow with the push of a button, letting you remove snow quickly and easily from garage aprons, curbs, loading docks, and tight corners. Then touch a button again to flip the blade upright and push the snow away.

## Optional Accessories:

- Skid Shoes
- Curb Guards
- Wear Bars
- Snow Deflectors
- Box Ends
