

**NEW
PRODUCT**

Hiniker V-753 ½ Ton V-Plow

Features and Benefits:

- LED or Halogen headlights.
- **NEW!** Center mast design
- **NEW!** Cross pin design, eliminating the 6 bolt system.
- Torsion spring trip edge with built in curb guards.
- Cutting edge attack angle increased for better snow removal

Whether you're clearing residential driveways or small commercial lots, the Hiniker V-753 V-Plow offers the strength and reliability you need. Its lightweight design ensures your 1/2-ton truck maintains optimal performance, while its robust features tackle tough snow conditions with ease.

**Enhanced Moldboard
Strength with Extra Ribbing**

Built with reinforced ribbing across the moldboard, this plow delivers superior torsional rigidity and durability where you need it most.

**Equalized Pivot Tubes for
Smooth, Balanced Wing
Operation**

The pivot tubes ensure both wings operate smoothly, sharing forces evenly and enhancing control during plowing in any blade position.

New Cross Pin Design
Say goodbye to the old six-bolt wing hinge system. The all-new cross pin setup improves strength, reduces maintenance, and simplifies serviceability.

Specifications
